

DS-2DE4425IW-DE(T5) 4 MP 25× Network IR Speed Dome

# **Acu**Sense

Hikvision DS-2DE4425IW-DE(T5) 4MP 25× Network IR Speed Dome adopts 1/2.8" progressive scan CMOS chip. With the 25× optical zoom lens, the camera offers more details over expansive areas.

This series of cameras can be widely used for wide ranges of high-definition, such as the rivers, roads, railways, airports, squares, parks, scenic spots, and venues, etc.

Empowered by deep learning algorithms, Hikvision AcuSense technology brings human and vehicle targets classification alarms to front- and back-end devices. The system focuses on human and vehicle targets, vastly improving alarm efficiency and effectiveness.  Focuses on human and vehicle targets classification based on deep learning

HIKVISION

- Support face capture. Up to 5 faces captured at the same time
- 1/2.8" progressive scan CMOS
- High quality imaging with 4 MP resolution
- Excellent low-light performance with powered-by-DarkFighter technology
- 25× optical zoom and 16× digital zoom provide close up views over expansive areas
- Expansive night view with up to 100 m IR distance
- Support H.265+/H.265 video compression

#### DORI

The DORI (detect, observe, recognize, identify) distance gives the general idea of the camera ability to distinguish persons or objects within its field of view.

It is calculated based on the camera sensor specification and the criteria given by EN 62676-4: 2015.

| DORI            | Detect               | Observe             | Recognize           | Identify           |
|-----------------|----------------------|---------------------|---------------------|--------------------|
| Definition      | 25 px/m              | 63 px/m             | 125 px/m            | 250 px/m           |
| Distance (Tele) | 2400.0 m (7874.0 ft) | 952.4 m (3124.7 ft) | 480.0 m (1574.8 ft) | 240.0 m (787.4 ft) |

### Specification

| Camera                 |                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------|
| Image Sensor           | 1/2.8" progressive scan CMOS                                                                    |
| Max. Resolution        | 2560 × 1440                                                                                     |
| Min. Illumination      | Color: 0.005 Lux @ (F1.6, AGC ON); B/W: 0.001 Lux @ (F1.6, AGC ON), 0 Lux with IR               |
| Shutter Speed          | 1 s to 1/30,000 s                                                                               |
| Slow Shutter           | Yes                                                                                             |
| Day & Night            | IR cut filter                                                                                   |
| Zoom                   | 25x optical, 16x digital                                                                        |
| Lens                   |                                                                                                 |
| Focus                  | Auto, semi-auto, manual                                                                         |
| Aperture               | Max. F1.6                                                                                       |
| Zoom Speed             | Approx. 3.6 s                                                                                   |
| Focal Length           | 4.8 mm to 120 mm                                                                                |
|                        | Horizontal field of view: 55° to 2.4° (wide-tele),                                              |
| FOV                    | Vertical field of view: 33° to 1.4° (wide-tele),                                                |
|                        | Diagonal field of view: 61.5° to 2.8° (wide-tele)                                               |
| Illuminator            |                                                                                                 |
| Supplement Light Type  | IR                                                                                              |
| Supplement Light Range | IR Distance: up to 100 m                                                                        |
| PTZ                    |                                                                                                 |
| Proportional Pan       | Yes                                                                                             |
| Park Action            | Preset, pattern scan, patrol scan, auto scan, tilt scan, random scan, frame scan, panorama scan |
| Scheduled Task         | Preset, pattern scan, patrol scan, auto scan, tilt scan, random scan, frame scan,               |
| Scheduled Task         | panorama scan, dome reboot, dome adjust, auxiliary output                                       |
| Movement Range (Pan)   | 360°                                                                                            |
| Movement Range (Tilt)  | -15° to 90° (auto flip)                                                                         |
| Pan Speed              | pan speed: configurable from 0.1° to 80°/s; preset speed: 80°/s                                 |
| Tilt Speed             | tilt speed: configurable from 0.1° to 80°/s, preset speed 80°/s                                 |
| Presets                | 300                                                                                             |
| Patrol Scan            | 8 patrols, up to 32 presets for each patrol                                                     |
| Pattern Scan           | 4 pattern scans                                                                                 |
| Power-off Memory       | Yes                                                                                             |
| 3D Positioning         | Yes                                                                                             |
| PTZ Status Display     | Yes                                                                                             |

| Preset Freezing             | Yes                                                                                        |
|-----------------------------|--------------------------------------------------------------------------------------------|
| Video                       |                                                                                            |
|                             | Main stream: H.265+/H.265/H.264+/H.264                                                     |
| Video Compression           | Sub-stream: H.265/H.264/MJPEG                                                              |
|                             | Third stream: H.265/H.264/MJPEG                                                            |
| Region of Interest (ROI)    | 8 fixed regions for each stream                                                            |
|                             | 50 Hz: 25 fps (2560 × 1440, 1920 × 1080, 1280 × 960, 1280 × 720)                           |
| Main Stream                 | 60 Hz: 30 fps (2560 × 1440, 1920 × 1080, 1280 × 960, 1280 × 720)                           |
|                             | 50 Hz: 25 fps (704 × 576, 640 × 480, 352 × 288)                                            |
| Sub-Stream                  | 60 Hz: 30 fps (704 × 480, 640 × 480, 352 × 240)                                            |
|                             | 50 Hz: 25 fps (1920 × 1080, 1280 × 960, 1280 × 720, 704 × 576, 640 × 480, 352 × 288)       |
| Third Stream                | 60 Hz: 30 fps (1920 × 1080, 1280 × 960, 1280 × 720, 704 × 480, 640 × 480, 352 × 240)       |
| Video Bit Rate              | 32 kbps to 16384 kbps                                                                      |
| Н.264 Туре                  | Baseline Profile/Main Profile/High Profile                                                 |
| Н.265 Туре                  | Main profile                                                                               |
| Scalable Video Coding (SVC) | H.264 and H.265 encoding                                                                   |
| Audio                       |                                                                                            |
| Audio Compression           | G.711/G.722.1/G.726/MP2L2/PCM                                                              |
| Audio Bit Rate              | 64 Kbps (G.711)/16 Kbps (G.722.1)/16 Kbps (G.726)/32-192 Kbps (MP2L2)                      |
| Audio Sampling Rate         | 8 kHz/16 kHz/32 kHz/48 kHz                                                                 |
| Environment Noise Filtering | Yes                                                                                        |
| Network                     |                                                                                            |
| Network Storage             | NAS (NFS, SMB/CIFS), auto network replenishment (ANR)                                      |

IP66 (IEC 60529-2013), TVS 6000V lightning protection, surge protection and voltage transient protection

#### Available Model

DS-2DE4425IW-DE(T5)

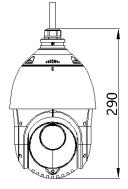

## Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

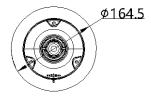

This model has NO SPECIFIC PROTECTION.

| Level                  | Description                                                                                                                                                                                                                                          |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Top-level protection   | Hikvision products at this level are equipped for use in areas where professional anti-corrosion protection is a must. Typical application scenarios include coastlines, docks, chemical plants, and more.                                           |
| Moderate protection    | Hikvision products at this level are equipped for use in areas with moderate anti-corrosiondemands. Typical application scenarios include coastal areas about 2 kilometers (1.24 miles) awayfrom coastlines, as well as areas affected by acid rain. |
| No specific protection | Hikvision products at this level are equipped for use in areas where no specific anti-corrosion protection is needed.                                                                                                                                |
