

How to Rest AX PRO Panel by Reset Button

Title:	How to Rest AX PRO Panel by Reset Button	Version:	v1.0	Date:	12/11/2020
Product:	DS-PWA Series AX PRO Wireless Security Control Panel			Page:	1 of 1

Preparation

1. DS-PWA Series AX PRO Wireless Security Control Panel

How to Rest AX PRO Panel by Reset Button

1. Find the Reset Button on AX PRO Panel

2. Hardware Reset Steps

- 1) Power On the Panel
- 2) When you hear the first voice (**control panel is ready**), long press the reset button until you hear the voice (**reset default**).

Note: The reset process needs to be operated when the Panel power is just turned on, and it is invalid when the panel works normal
