

# S9001 DAS INTERNAL PIEZO SCREAMER

## SPECIFICATION:

Item	Specification
Tamper Switch Loop	2Ω MAX
Voltage Range (V DC)	6~12
Rated Voltage (V DC)	12
Current Consumption	100~250mA
SPL(dB) /m	105~115 dB
Dimensions	115(W)*160(H)*40(D)mm

## FUNCTION AND OPERATION INSTRUCTIONS:

- Two yellow wires are TAMPER SWITCH LOOP
- Red wire is two tone INPUT (+)
- Black wire is COMMON INPUT (-)
- Two tone alarm will occur when red and black wires are connected with 12VDC.

## NOTES:

The sound metre is set to SPL weighted measurement with A-type filter.

The output is measured in the open field or in a special sound-absorbing room.

The siren is mounted 1.5 metre above the ground.

The sound output of the siren measured directly in front of the siren at distance of 1 meter.
